

Curtain Project Price Guild

PROMAXCOLOURS

Curtain and Roman Blind Specialists

In general, material cost (fabric/lining/track) occupies more than 60% of total price. Making cost occupies about 30% and rest is installation and freight. So the total price really depends on the value of material you choose.

There is a quick way to estimate the total cost of your project. Certainly a detailed breakdown cost will be provided after full measurement is taken.

For a quick estimation, we need determine the total window width combination. A two bed room flat normally has 8 windows equivalent of 15m total window width. A three bed room house normally has 10 windows equivalent of 20m total window width. A four bed room with two living areas house may have more than 12 windows equivalent of 25m total window width.

2 bedroom flat
Approx 8 windows

Lifestyle fabric \$3000

Classic fabric with lining \$3700

3 bed room house
Approx 10 windows

Lifestyle fabric \$3800

Classic fabric with lining \$4900

4 bedroom house with 2 living areas
Approx 12 windows

Lifestyle fabric \$4600

Classic fabric with lining \$6100

*Lifestyle fabric is based on \$34/m triple weave fabric. Curtain is unlined. Classic fabric is based on \$60/m continuous fabric and \$28/m continuous thermal lining sewing together. Both curtains are double fullness with full length 2.5m or less. Curtain tracks/making/local installation and freight cost are included. All prices include GST.

**Estimation has included discount of 20% off face fabric RRP, 30% off lining RRP, 20% off curtain tracks RRP and 30% off making RRP.

“The bitterness of poor quality remains long after the sweetness of low price is forgotten.”

– Benjamin Franklin

2018 Promax Making Rate

Curtains
